DASpedia 2026 is the premier executive-level business development event dedicated to In-Building Wireless Technology. At DASpedia, our mission is to foster excellence and leadership by creating opportunities to connect with and learn from top industry experts. Our event is thoughtfully designed to maximize engagement for our sponsors, annual members, and attendees alike.

Join us to Learn, Share, and Prosper!

Date: February 17-18, 2026

Location: The Westin Irving – Dallas, Texas

DASpedia 2026 - In-Building Wireless Technology Forum

DASpedia's In-Building Wireless Technology Forum is scheduled for February 17–18, 2026 at The Westin Irving in Dallas, TX. Headline participants include teams from Verizon Wireless, AT&T, and T-Mobile. This year's theme is curated for professionals driving 5G deployments, in-building wireless innovation, and private networks powered by CBRS, 5G, LTE, and Wi-Fi.

DASpedia 2026 will bring together industry executives, visionary thought leaders, inspiring speakers, MNO attendees, enterprise representatives, and wireless technology experts. Join us as we explore how wireless technology, automation, and innovation are transforming the way enterprises, venues, and service providers connect in today's digital world.
