ALSO FEATURING

DASpedia 2027 is an invitation-only, executive-level business development conference dedicated to In-Building Wireless Technologies, including DAS, Wi-Fi, and Private Wireless Networks.

Our mission is to foster leadership and business growth by creating meaningful opportunities to connect with and learn from leading industry experts. DASpedia 2027 is thoughtfully designed to maximize engagement and deliver meaningful value for our sponsors, exhibitors, and attendees.

Join us to Learn, Share, and Prosper!

Date: February 2-3, 2027

Location: The Westin Anaheim Resort – Anaheim, California

DASpedia 2027 - In-Building Wireless Technology Forum

DASpedia's In-Building Wireless Technology Conference will take place February 2–3, 2027, at The Westin Anaheim Resort in Anaheim, CA. Headline participants include teams from Verizon Wireless, AT&T, and T-Mobile.

DASpedia 2027 is designed for professionals advancing In-Building Wireless innovation, 5G deployments, WiFi, and Private Wireless Networks powered by LTE, CBRS, and 5G.

The conference brings together industry executives, thought leaders, speakers, MNO representatives, enterprise decision-makers, and wireless technology experts. Join us as we explore how wireless technology, automation, and innovation are transforming connectivity for enterprises, venues, and service providers.
